The Service -

Shearwater is in the Milton area of Portsmouth and is a purpose built 40 bed dementia residential home, which opened in August 2009. The accommodation is spread over 2 floors in units of 20 per floor. All bedrooms have a private ensuite with a shower. The home also has a good-sized garden for residents to enjoy.

We currently have around 100 staff working different roles and different shifts throughout the home.

The second floor is currently not occupied and is being used for the council's contingency plan, plus activity area for residents.

Our philosophy is to encourage independence, though we recognise severe dementia may require residential care. We promote well-being through person centred activities and supporting diversity.
