Our exciting new service offer

In Portsmouth we are proud to be at the forefront of integrated multi-agency work with neurodiverse children and their families. As a national trailblazer, we have launched our new ND pathway and Multidisciplinary 0-19yr Neurodiversity Service. This brings together experts from a range of fields to provide universal and targeted information, advice and guidance.

We are frequently told that early identification of neurodevelopmental differences and robust planning can significantly improve a child's outcomes. Parents and practitioners have often felt frustrated by the complex system of support, assessment and intervention. Neurodevelopmental differences can be seen as the direct effects of brain 'wiring,' observable via:

- Behaviour
- How a person thinks
- How a person sees the world
- How a person responds emotionally
- Problem Solving
- Learning style
- How a person relates to others.
